Boston College 2022 CES Survey

Pre-Election Survey
There are 5 sections on the pre-election survey. All sections were asked sequentially.

Section 1

BOS300
How familiar are you with the upcoming Supreme Court case, *Students for Fair Admissions v. Harvard College*, that is considering the legality of Harvard race-conscious admissions policies?

1 Very familiar
2 Somewhat familiar
3 Not too familiar
4 Not at all familiar
999 {code but do not display to respondent} Skipped

BOS301
As best you can remember, which group of students is suing Harvard for using race as a factor in its admissions decisions? *Please only ask BOS301 if answer to BOS300 was 1, 2, or 3. Please randomize the order of the first three answer choices but fix answer choice 9.*

1 A group of Asian students
2 A group of Black students
3 A group of Hispanic students
9 I'm not sure
999 {code but do not display to respondent} Skipped

BOS302
Are you the parent, step-parent, or foster parent of a child living in your household who is in a grade from kindergarten through 12th grade?

1 Yes
2 No
999 {code but do not display to respondent} Skipped

BOS303
Are you the parent, step-parent, or foster parent of any students who are entering their 1st, 2nd, or 3rd year of college/university this fall? *Please only ask BOS303 if answer to BOS302 was 2.*

1 Yes
2 No
999 {code but do not display to respondent} Skipped

BOS304
Below is a list of local public-school districts. Which one do you consider to be the school district where you live?

1 District name 1
2 District name 2
8 Don't know
9 Other: please specify_____
999 {code but do not display to respondent} Skipped

BOS305
Many school board elections are held at a time different from other elections, and very little information is easily available about the candidates in most school board elections. As a result, only a small fraction of the public tends to vote in these elections. Do you remember for sure whether you voted in the last school board election?

1 Voted
2 Did not vote
3 Ineligible to vote
8 Don't know, can't remember
999 {code but do not display to respondent} Skipped

BOS306
Have you ever attended a local school board meeting?

1 Yes
2 No
999 {code but do not display to respondent} Skipped

BOS307
Did you attend a school board meeting before or after the Covid-19 pandemic began in 2020?
Please only ask BOS307 if answer to BOS306 was 1.

1 Attended a school board meeting before Covid-19 began
2 Attended a school board meeting after Covid-19 began
3 Attended a school board meeting both before and after Covid-19 began
999 {code but do not display to respondent} Skipped

Section 2

BOS308, BOS309, BOS310, BOS311, BOS312, BOS313, BOS314, BOS315
*Please randomly assign either **BOS308, BOS309, BOS310, BOS311, BOS312, BOS313, BOS314, or BOS315**. Additionally, please randomize the bold italicized items in each applicant's profile so that the pair of applicants shown within a single question condition never intern or volunteer for the same type of organization as the other applicant.*

BOS308
A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school is 50% white, 30% Asian, 8% Hispanic, 8% Black or African-American, and 4% Native American. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal background:* • Asian-American • Male • Middle-class background	*Accomplishments:* • 3.5 Grade Point Average (GPA) • Scored better than 65% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal background:* • Black/African-American • Male • Middle-class background

BOS309
A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school is 50% white, 30% Asian, 8% Hispanic, 8% Black or African-American, and 4% Native American. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.5 Grade Point Average (GPA) • Scored better than 65% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal background:* • Black/African-American • Male • Middle-class background	*Accomplishments:* • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal background:* • Asian-American • Male • Middle-class background

BOS310

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school is 50% white, 30% Asian, 8% Hispanic, 8% Black or African-American, and 4% Native American. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal:* • Asian-American • Male • Middle-class background	*Accomplishments:* • 3.7 Grade Point Average (GPA) • Scored better than 85% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal:* • Black/African-American • Male • Middle-class background

BOS311

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school is 50% white, 30% Asian, 8% Hispanic, 8% Black or African-American, and 4% Native American. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.7 Grade Point Average (GPA) • Scored better than 85% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal:* • Black/African-American • Male • Middle-class background	*Accomplishments:* • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal:* • Asian-American • Male • Middle-class background

BOS312

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school roughly matches the racial/ethnic composition of the United States: 58% white, 19% Hispanic, 13% Black or African-American, and 6% Asian. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal background:* • Asian-American • Male • Middle-class background	*Accomplishments:* • 3.5 Grade Point Average (GPA) • Scored better than 65% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal background:* • Black/African-American • Male • Middle-class background

BOS313

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school roughly matches the racial/ethnic composition of the United States: 58% white, 19% Hispanic, 13% Black or African-American, and 6% Asian. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.5 Grade Point Average (GPA) • Scored better than 65% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal background:* • Black/African-American • Male • Middle-class background	*Accomplishments:* • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal background:* • Asian-American • Male • Middle-class background

BOS314

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school roughly matches the racial/ethnic composition of the United States: 58% white, 19% Hispanic, 13% Black or African-American, and 6% Asian. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal:* • Asian-American • Male • Middle-class background	*Accomplishments:* • 3.7 Grade Point Average (GPA) • Scored better than 85% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal:* • Black/African-American • Male • Middle-class background

BOS315

A medical school must choose between two candidates who are competing for the final spot in next year's class of future doctors. The current student body at this particular medical school roughly matches the racial/ethnic composition of the United States: 58% white, 19% Hispanic, 13% Black or African-American, and 6% Asian. After carefully reviewing each applicant's profile below, please choose the applicant you think the medical school should admit.

Applicant A	Applicant B
Accomplishments: • 3.7 Grade Point Average (GPA) • Scored better than 85% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/ food bank***] *Personal:* • Black/African-American • Male • Middle-class background	*Accomplishments:* • 3.8 Grade Point Average (GPA) • Scored better than 90% of applicants on Medical School Admissions Test (MCAT) • Interns for [***cancer/biomedical***] research lab • Volunteers at local [***animal shelter/food bank***] *Personal:* • Asian-American • Male • Middle-class background

Section 3

BOS316
During the 2020-21 school year, many K-12 schools relied exclusively on remote instruction because some people believed that in-person learning was too risky during the pandemic. How did the public schools in your community educate students during that first full school year following the onset of the Covid-19 pandemic?

1 Students mostly learned in-person at school
2 Mix of in-person and remote instruction
3 Students mostly learned remotely from home
8 Don't know
999 {code but do not display to respondent} Skipped

BOS317
How about the private schools in your community? How did they educate students?

1 Students mostly learned in-person at school
2 Mix of in-person and remote learning
3 Students mostly learned remotely from home
8 Don't know
999 {code but do not display to respondent} Skipped

BOS318, BOS319, BOS320
Do you think that prolonged school closures had a positive or negative effect on students:

Rows:
BOS318 Academic knowledge and skills
BOS319 Emotional wellbeing
BOS320 Being protected from Covid-19

Columns:
1 Strongly positive effect
2 Somewhat positive effect
3 Somewhat negative effect
4 Strongly negative effect
5 Neither positive nor negative effect

BOS321
Looking back, do you think that school closures that kept students from learning in-person for a year or longer were justified or unjustified?

1 Unjustified
2 Somewhat unjustified
3 Somewhat justified
4 Justified

BOS322
Students are often given the grades A, B, C, and D, and Fail to denote the quality of their work. Suppose the public schools themselves were graded in the same way. What grade would you give the public schools in your community?

1 A
2 B
3 C
4 D
5 Fail

BOS323
Heading into the 2020-21 school year, the nation's K-12 schools faced many new challenges: a global pandemic, a polarized political landscape, and a societal reckoning over racial inequality. In what order should the public schools have prioritized the following issues.
Please randomize the order of appearance of all six items.

1 Reopening/keeping schools open for in-person learning
2 Improving/raising teacher salaries
3 Promoting diversity, equity, and inclusion for all students and staff
4 Addressing students' social and emotional learning needs
5 Teaching children about democracy and civic responsibility
6 Giving parents more of a say in their kids' education

BOS324
Broadly speaking, do you approve or disapprove of how the governor in your state handled reopening schools during the Covid-19 pandemic?

1 Strongly approve
2 Somewhat approve
3 Somewhat disapprove
4 Strongly disapprove
5 Neither approve nor disapprove

BOS325
Broadly speaking, do you approve or disapprove of how the public schools in your community have handled issues related to reopening schools during the Covid-19 pandemic?

1 Strongly approve
2 Somewhat approve
3 Somewhat disapprove
4 Strongly disapprove
5 Neither approve nor disapprove

BOS 326
Broadly speaking, do you approve or disapprove of how the public schools in your community have handled issues related to Critical Race Theory (CRT)?

1 Strongly approve
2 Somewhat approve
3 Somewhat disapprove
4 Strongly disapprove
5 Neither approve nor disapprove

BOS 327
Which of the following statements most accurately describes what Critical Race Theory (CRT) is in the context of American education. *Please randomize these three answer choices.*

1 CRT encourages students to question the very foundations of America's classical liberal order, including: equality, rationalism, and neutral principles of law
2 CRT encourages students to have some awareness of historical facts like slavery, racism, and other challenges that racial minorities have faced
3 CRT encourages students to question their patriotism by downplaying the accomplishments of the founders and understanding 1619 – when the first slaves arrived in America – as the country's true founding

BOS 328
Which statement comes closer to your views about the role of standardized tests like high school exit exams, the SAT/ACT, and Advanced Placement (AP) exams? *Please randomize these two answer choices.*

1 Since their inception almost a century ago, standardized tests have been instruments of racism that perpetuate racial bias in our society
2 Although they are imperfect instruments, standardized tests are one objective indicator of a student's academic progress and ability

BOS329
Who in your local community has the most influence over K-12 education? Rank each of the following from the most influential actor to the least influential actor. *Please randomize the order of appearance of the items*

1 School board
2 Teachers union
3 School administrators
4 Parents

Section 4

*Please randomly assign respondents to 1 of either **BOS 330**, **BOS331**, **BOS332**, or **BOS333***

BOS330

Some people say that **because of past discrimination**, Blacks should be given preference in university admissions. Others say that such preference is wrong because it discriminates against **whites**. What about your opinion – are you for or against preferential admissions policies for Blacks?

1 For
2 Against
8 No opinion
999 {code but do not display to respondent} Skipped

BOS331

Some people say that **because of past discrimination**, Blacks should be given preference in university admissions. Others say that such preference is wrong because it discriminates against **Asians**. What about your opinion – are you for or against preferential admissions policies for Blacks?

1 For
2 Against
8 No opinion

BOS332

Some people say that **because it is important to have diversity on college campuses**, Blacks should be given preference in university admissions. Others say that such preference is wrong because it discriminates against **whites**. What about your opinion – are you for or against preferential admissions policies for Blacks?

1 For
2 Against
8 No opinion

BOS333

Some people say that **because it is important to have diversity on college campuses**, Blacks should be given preference in university admissions. Others say that such preference is wrong because it discriminates against **Asians**. What about your opinion – are you for or against preferential admissions policies for Blacks?

1 For
2 Against
8 No opinion

BOS334, BOS335, BOS336, BOS337, BOS338, BOS339
Here are some factors colleges and universities may consider when making decisions about student admissions. Do you think each of the following should be a major factor, minor factor, or not a factor in college admissions? *Please randomize the order of the rows in this grid*

Rows:

BOS334	Race or ethnicity
BOS335	Whether a relative attended the school
BOS336	Scores on standardized tests, such as the SAT or ACT
BOS337	High school grades
BOS338	Character or personality factors (e.g., likeability, courage, kindness)
BOS339	Being the first person in the family to go to college

Columns:

1	Major factor
2	Minor factor
8	Not a factor
999	{code but do not display to respondent} Skipped

BOS340
What's the main reason you believe that race and ethnicity should be a factor in college admissions? *Please only ask BOS340 if answer to BOS334 was 1 or 2. Please randomize answer choices 1-2 below, but anchor 9 as the last answer choice.*

1	Make up for past discrimination against racial minorities
2	Increase racial diversity on college campuses
9	Other: please specify_____
999	{code but do not display to respondent} Skipped

BOS341
Why do you believe that race and ethnicity should not be a factor in college admissions? Please select all that apply. *Please only ask BOS341 if answer to BOS334 was 3. Please randomize all answer choices. Randomize answer choices 1-5 below, but anchor 6 and 9.*

1	Colleges may discriminate against Jewish applicants
2	Colleges may discriminate against Black applicants
3	Colleges may discriminate against Asian applicants
4	Colleges may discriminate against white applicants
5	Colleges may discriminate against Latino applicants
6	Because an applicant's race should not advantage or disadvantage them
9	Other: please specify_____
999	{code but do not display to respondent} Skipped

BOS342, BOS343, BOS344, BOS345, BOS346, BOS347
Do you think each of the following should be a major factor, minor factor, or not a factor in medical school admissions? *Please randomize the order of the rows in this grid*

Rows:

BOS342	Race or ethnicity
BOS343	Willingness to work as a doctor in a disadvantaged community
BOS344	Scores on the Medical School Admissions Test (MCAT)
BOS345	College grades
BOS346	Character or personality factors (e.g., likeability, courage, kindness)
BOS347	Being the first person in the family to become a doctor

Columns:

1	Major factor
2	Minor factor
8	Not a factor
999	{code but do not display to respondent} Skipped

BOS348
What's the main reason you believe that race and ethnicity should be a factor in medical school admissions? *Please only ask BOS348 if answer to BOS342 was 1 or 2. Please randomize answer choices 1-2 below, but anchor 9 as the last answer choice).*

1	Make up for past discrimination against racial minorities
2	Increase racial diversity in the medical profession
9	Other: please specify_____
999	{code but do not display to respondent} Skipped

BOS349
Why do you believe that race and ethnicity should not be a factor in medical school admissions? *Please only ask BOS349 if answer to BOS342 was 3. Please randomize answer choices 1-5 below, but anchor 6 and 9 in the order they appear.*

1	{Allows medical schools to discriminate against Jewish applicants}
2	{Allows medical schools to discriminate against Black applicants}
3	{Allows medical schools to discriminate against Asian applicants}
4	{Allows medical schools to discriminate against white applicants}
5	{Allows medical schools to discriminate against Latino applicants}
6	{Because an applicant's race should neither advantage nor disadvantage them}
9	{Other: please specify_____}
999	{code but do not display to respondent} Skipped

BOS350, BOS351, BOS352, BOS353, BOS354, BOS355
Exam schools are specialized public high schools for high-performing students. Do you think each of the following should be a major factor, minor factor, or not a factor in admissions to exam high schools? *Please randomize the order of the rows in this grid*

Rows:

BOS350	Race or ethnicity
BOS351	Academic ability
BOS352	Performance on entrance exam (test scores)
BOS353	Middle school grades
BOS354	Character or personality factors (e.g., likeability, courage, kindness)
BOS355	Being the first person in the family to go to college

Columns:

1	{Major factor}
2	{Minor factor}
3	{Not a factor}
999	{code but do not display to respondent} Skipped

BOS356
What's the main reason you believe that race and ethnicity should be a factor in admissions to exam high schools? *Please only ask BOS356 if answer to BOS350 was 1 or 2. Please randomize answer choices 1-2 below, but anchor 9 as the last answer choice).*

1	Make up for past discrimination against racial minorities
2	Increase racial diversity in the nation's public exam schools
9	Other: please specify_____
999	{code but do not display to respondent} Skipped

BOS359
Why do you believe that race and ethnicity should not be a factor in admissions exam high schools? *Please only ask BOS359 if answer to BOS352 was 3. Please randomize answer choices 1-5 below, but anchor 6 and 9 in the order they appear.*

1	Allows exam schools to discriminate against Jewish applicants
2	Allows exam schools to discriminate against Black applicants
3	Allows exam schools to discriminate against Asian applicants
4	Allows exam schools to discriminate against white applicants
5	Allows exam schools to discriminate against Latino applicants
6	Because an applicant's race should neither advantage nor disadvantage them
9	Other: please specify_____
999	{code but do not display to respondent} Skipped

Section 5

BOS360
Typically, states draw new maps for congressional or state legislative districts every decade. These maps are important for elections and representation. What do you think should be the most important qualities that map makers emphasize when they draw new legislative districts? Rank the following redistricting criteria from most important to least important: *Please randomize the order of appearance of the items.*

1 Drawing geographically neat, compact districts
2 Drawing districts that don't divide cities and/or counties
3 Drawing districts to help the majority party in the state gain seats
4 Drawing districts to get more competitive elections in each district
5 Drawing districts that help minority groups elect the candidate of their choice

BOS361_pre
The congressional and/or state legislative districts in your state determine where and with whom you can vote and be represented. These maps are drawn by different legal and political institutions depending on the state, the year, and the type of map. Which institution would you most want to draw the district that you live in? *Please randomize the order of the answer choices.*

1 State Court
2 Independent/Nonpartisan Commission or Panel
3 State Legislature with one party majority control
4 State Legislature with divided party control
5 Federal Court
999 {code but do not display to respondent} Skipped

Post-Election Survey
There are 3 sections on our post-election survey. All sections were asked sequentially.

Section 1

*Please randomly assign respondents to 1 of either **BOS361, BOS362, BOS363, or BOS364***

BOS361
School board members are almost always chosen in nonpartisan elections. This means that candidates run without party labels printed on the ballot. Do you think that school board elections should be **nonpartisan**? Or should they be **partisan** elections where voters are able to see which party a candidate identifies with on the ballot? *Please randomize answer choices 1-2*

1 School board elections should be **nonpartisan**
2 School board elections should be **partisan**

BOS362
School board members are almost always chosen in nonpartisan elections. This means that candidates run without party labels printed on the ballot. Some people argue that holding partisan school board elections would make it easier for voters to choose the candidate who shares their political values and policy priorities. Do you think that school board elections should be **nonpartisan**? Or should they be **partisan** elections where voters are able to see which party a candidate identifies with on the ballot? *Please randomize answer choices 1-2*

BOS363
School board members are almost always chosen in nonpartisan elections. This means that candidates run without party labels printed on the ballot. Some people argue that holding nonpartisan school board elections helps keep partisan politics out of education. Do you think that school board elections should be **nonpartisan**? Or should they be **partisan** elections where voters are able to see which party a candidate identifies with on the ballot? *Please randomize answer choices 1-2*

BOS364
School board members are almost always chosen in nonpartisan elections. This means that candidates run without party labels printed on the ballot. Some people argue that holding partisan school board elections would increase the number of people who turn out to vote for the school board. Do you think that school board elections should be **nonpartisan**? Or should they be **partisan** elections where voters are able to see which party a candidate identifies with on the ballot? *Please randomize answer choices 1-2*

BOS365
Compared with other issues, how important was the issue of education and the public schools to you in the 2022 midterm election?

1 One of the most important issues
2 Very important, but several other issues are more important
3 Somewhat important

4 A little bit important
5 Not important

BOS366
In general, do you have more confidence in the Democrats or in the Republicans to deal with education issues? *Please randomize the order of the answer choices (1-2) below. Keep choices 3 and 4 fixed in the 3rd and 4th positions.*

1 More confidence in Democrats
2 More confidence in Republicans
3 Same confidence in both parties
4 No confidence in either party

*Please randomly assign respondents to 1 of either **BOS367, BOS368, BOS369, or BOS370***

BOS367
Local school board elections are often held on a different day than national elections, which occur in November in even-numbered years. Do you think that school board elections should be held on a **different day** than national elections? Or should school board elections be held on the **same day** as national elections? *Please randomize answer choices 1-2*

1 On a **different day** than national elections
2 On the **same day** as national elections

BOS368
Local school board elections are often held on a different day than national elections, which occur in November in even-numbered years. Research shows that holding school board elections on the same day as national elections increases the number of people who turn out to vote for the school board. Do you think that school board elections should be held on a **different day** than national elections? Or should school board elections be held on the **same day** as national elections? *Please randomize answer choices 1-2*

BOS369
Local school board elections are often held on a different day than national elections, which occur in November in even-numbered years. Research shows that holding school board elections on the same day as national elections increases the number of racial minorities who turn out to vote for the school board. Do you think that school board elections should be held on a **different day** than national elections? Or should school board elections be held on the **same day** as national elections? *Please randomize answer choices 1-2*

BOS370
Local school board elections are often held on a different day than national elections, which occur in November in even-numbered years. Research shows that holding school board elections on the same day as national elections makes it harder for teachers' unions to get their preferred candidates elected to the board. Do you think that school board elections should be held on a **different day** than national elections? Or should school board elections be held on the **same day** as national elections? *Please randomize answer choices 1-2*

BOS399, BOS400, BOS401, BOS402, BOS403, BOS404, BOS405, BOS406, BOS407, BOS408, BOS409, BOS410, BOS411, BOS412

**** Please randomly assign respondents to 1 of the following 2 sets of 7 questions each*

BOS399, BOS400, BOS401, BOS402, BOS403, BOS404, and BOS405
Throughout the pandemic, public health experts assigned different levels of risk to Americans' everyday activities. After vaccines became widely available, how risky do you think each of the following activities were for the typical **50-year-old adult**? *Please randomize the order of the rows in this grid*

BOS399	Working as a teacher inside an elementary school
BOS400	Working as a nurse inside a doctor's office
BOS401	Exercising at a gym
BOS402	Attending a small dinner party
BOS403	Eating at a dine-in restaurant
BOS404	Attending church or religious services
BOS405	Attending a sporting event, concert, or movie

Columns:

1	Very risky
2	Somewhat risky
3	Not too risky
4	Not at all risky

BOS406, BOS407, BOS408, BOS409, BOS410, BOS411, and BOS412
Throughout the pandemic, public health experts assigned different levels of risk to Americans' everyday activities. After vaccines became widely available, how risky do you think each of the following activities were for the typical **10-year-old child**?

Please randomize the order of the rows in this grid

BOS406	Attending elementary school in-person
BOS407	Visiting a doctor's office for an appointment
BOS408	Playing indoor sports at school
BOS409	Attending another child's birthday party
BOS410	Eating at a dine-in restaurant
BOS411	Attending church or religious services
BOS412	Attending a sporting event, concert, or movie

4	Not at all risky

Section 2

*Please randomly assign respondents to 1 of either **BOS373, BOS374, or BOS375***

BOS373
According to the US department of education, 50% of the nation's public schools provided little to no in-person instruction during the 2020-21 school year (the first full school year after the pandemic began). Looking back, do you think that the sort of prolonged school closures that kept students from learning in-person for a full school year were justified or unjustified?

1 Unjustified
2 Somewhat unjustified
3 Somewhat justified
4 Justified
999 {code but do not display to respondent} Skipped

BOS374
According to the US department of education, 50% of the nation's public schools provided little to no in-person instruction during the 2020-21 school year (the first full school year after the pandemic began). In contrast, 90% of the nation's Catholic schools provided fully in-person instruction. Looking back, do you think that the sort of prolonged school closures that kept students from learning in-person for a full school year were justified or unjustified?

1 Unjustified
2 Somewhat unjustified
3 Somewhat justified
4 Justified
999 {code but do not display to respondent} Skipped

BOS375
According to the US department of education, 50% of the nation's public schools provided little to no in-person instruction during the 2020-21 school year (the first full school year after the pandemic began). In contrast, 90% of the nation's Catholic schools provided fully in-person instruction. Public health researchers found no evidence that reopening Catholic schools harmed students, staff, or the local community. Looking back, do you think that the sort of prolonged school closures that kept students from learning in-person for a full school year were justified or unjustified?

1 Unjustified
2 Somewhat unjustified
3 Somewhat justified
4 Justified

BOS376, BOS377, BOS378, BOS379, BOS380, BOS381
According to the US department of education, 90% of the nation's Catholic schools provided fully in-person instruction to their students for the majority of the 2020-21 school year. Do you think each of the following played a major role, minor role, or no role whatsoever in enabling Catholic schools to reopen more quickly than public schools: *Please randomize*

Rows:

BOS376	Catholic schools have more money to spend than public schools
BOS377	Catholic schools have newer and nicer school buildings/facilities
BOS378	Catholic schools have smaller class sizes
BOS379	Catholic schools do not need to negotiate with teachers unions
BOS380	Catholic schools have more incentive to respond to families who pay tuition
BOS381	Catholic schools face fewer bureaucratic and political hurdles

Columns:

1	Major role
2	Minor role
3	No role whatsoever

BOS391, BOS392
*Please randomly assign respondents to 1 of either **BOS391 or BOS392***

BOS391
A proposal has been made that would give all families with children in public schools a wider choice, by allowing them to enroll their children in private schools instead, with government helping to pay the tuition. Would you support or oppose this proposal?

1 Strongly support
2 Somewhat support
3 Neither support nor oppose
4 Somewhat oppose
5 Strongly oppose
999 {code but do not display to respondent} Skipped

BOS392
A proposal has been made that would give families whose children attend public schools that did not provide in-person instruction during the pandemic a wider choice, by allowing them to enroll their children in private schools instead, with government helping to pay the tuition. Would you support or oppose this proposal?

1 Strongly support
2 Somewhat support
3 Neither support nor oppose
4 Somewhat oppose
5 Strongly oppose
999 {code but do not display to respondent} Skipped

BOS393
Some people say that teacher unions make it harder to improve schools. Others say that unions fight for better schools and better teachers. What do you think? Do you think teacher unions have a generally positive effect on schools, or do you think they have a generally negative effect?

1 Strongly positive effect
2 Somewhat positive effect
3 Neither positive nor negative effect
4 Somewhat negative effect
5 Strongly negative effect

BOS394
To the best of your knowledge, which of the following most accurately describes how the federal government responded to the needs of K–12 schools after the onset of the pandemic: *Please randomize:*

1 The federal government provided an unprecedented $200 billion in school funding
2 The federal government moderately increased its spending on education
3 The federal government mostly kept education spending in line with prior years
4 The federal government decreased education spending to prioritize business
999 {code but do not display to respondent} Skipped

BOS395
To the best of your knowledge, which of the following most accurately describes how European nations dealt with the issue of reopening their public schools during the pandemic *Please randomize*

1 European countries reopened their schools much more quickly than the US
2 European countries reopened their schools at roughly the same pace as the US
3 The US reopened its schools much more quickly than did Europe

Please provide respondents with the sort of widget "ruler" used with "feeling thermometers" that allow them to choose a value between 0-100 on a fully continuous scale. Please be sure that if the respondent does not move the widget, a value of 0 is not automatically entered. Instead, a respondent who does not move their widget because they skip this question should, like in all questions, be coded 999.

BOS396
On a scale of 0 to 100 percent, what is the chance that you will get the coronavirus in the next three months? If you are not sure, please give your best guess.

BOS397
If you do get the coronavirus, on a scale of 0 to 100 percent, what is the percent chance you will be hospitalized (spend at least one night in the hospital) from it? If you are not sure, please give your best guess.

BOS398
If you do get the coronavirus, on a scale of 0 to 100 percent, what is the percent chance you will die from it? If you are not sure, please give your best guess.
